DEAD.—W. G. Tharp, of this place, aged 73 years. How feeble are words to carry consolation to hearts bereaved of a beloved father. A tender clinging vine interwoven in sweet memories from the hour he first came into our town; a gentle spirit of light that flitted in and out like a gleam of sunshine. No one can fill his place in the vacant chair. No one will take his place in your hearts, and you would not have the void filled, even if you could. It will be a sacred thought in the years to come, to children and friends, that he shed radiance in his home as long as he lived. It will be a blessed recollection, that he grew up to love and to be loved by those who ever so tenderly cherish his sweet and pure memory.

LEVEL GREEN

The 'Possum tide struck us last week and the crop is ripening fast. The crop, tho' short in numbers, is well up in size and quality, and the Rabbit crap was never better.

The sportsmen air rubbin up their guns and feeding their dogs, making ready for the sport on one hand and the profit on the other—indeed every season has its charms, delights and profits, but none can beat late fall and winter.

You may talk of Spring, with its thawing ice, melting snow, budding trees and flowers, springing grass &c, or summer with its long hot gaze, new moon and aromatic breezes, or Autumn, with all its joys and its so forth, but they dwindle into insignificance and get behind the door when winter, heart-cheering, life invigorating winter comes to the front, loaded with thousands of natures richest gifts and soul enchanting delights which I will neither attempt, to name nor describe for Experience and Observation would teach even a wayfaring son of the back woods or mountains tho' he be ever so illiterate, that Winter surpasses them all. Now having gained my point it this I'll proceed to speak of something else, for I must not dwell too long on one subject.

Wade Brown sold two late mule colts at \$25 each, while J. B. Cummins received \$40, and W. F. DeBord \$35 each and respectively for theirs. Fatling hogs are scarce now than ever known before in our holler, but a few beeves will be killed which will supply the deficiency.

People eat too much hog anyhow, if they would try a substitute they would soon see the difference. Now to prove this, take one good look at the German or Polish Jew and this will be convincing proof. Well sir, I sometimes wish I'd been born a Jew so that I'd be fat, but that was a matter over which I had no control. Wonder how Prof. Martin and I would look if we were clothed in flesh any way? Bet our families would not know us.

The approaching election hasn't awakened much enthusiasm in this part yet, tho' things may reach a boiling heat before the 5th of November. An election without enthusiasm gives poor encouragement to a certain class of patriots found in every township—its like pudding without the dip.

The weather is so beautiful that it puts inspiration even in the old bones of those who have no muscle.

Betsy will apply to the County Court for a patent on her "yellow root" compound, at its next sitting.

TOT CAUSE NIGHT ALARM. "One night my brother's baby was taken with Croup," writes Mrs. J. C. Snider, of Crittenden, Ky., "it seemed it would strangle before we could get a doctor, so we gave it Dr. King's New Discovery, which gave quick relief and permanently cured it. We always keep it in the house to protect our children from Croup and Whooping Cough. It cures me of a chronic bronchial trouble that no other remedy would relieve." Infallible for Coughs, Colds, Throat and Lung troubles. 50c and \$1.00 Trial bottles free at all Druggists.

Gone to join the angels, the little infant of Mr. and Mrs. Elmer Houk. Having been sick only seven days, the Allwise Providence, knowing best, saw fit that the angel of death should visit the happy home and take from the devoted father and mother, their loved Nora and safely pilot her into the heaven of rest. We heartily extend our many sympathies to the bereft family, we hear her softly say, only an angel, a little angel, and that for ever to be; Papa and Mamma I can't go to you, but you will come to me?

Those who attended the teachers meeting at Brodhead last Saturday report it well attended, much enthusiasm manifested in educational affairs, preparation, and in every respect a success.

Mr. Bill Houk, one of our most prominent citizens and Mr. Edgar Griffin L. & N. brakeman may now be seen smiling and we judge from their very expression that a "fine" boy has made a welcome appearance to each home.

Two Republicans called upon Mr. Tate to vindicate himself from the damaging charges made against him during the primary. They addressed open letters to him which we printed last week. If Mr. Tate was innocent we naturally felt that he would deny those charges through the columns of this paper as the requests were asked through it and have those who knew the facts to clear him, but we have patiently waited and he fails to deny, and the charges must, therefore, be taken as true. The charges were made openly by Republican officials and not by Democrats. Mr. Tate has been called upon by Republicans publicly to vindicate himself and yet, he makes no attempt to do so. It might be, however, that Mr. Tate will wait until the last issue of the paper before the election and then when it is so late and so close to the election that the facts can not be published and thus attempt a vindication. Mr. Tate promised the people before the primary that as soon as the primary was over he would make a full statement and completely set himself aright but the primary has come and gone; days have grown into weeks and weeks have grown into months and yet he is silent. If innocent why silent?

LEON CZOLGOSZ will pay the penalty, at some time during next week for the murder of President McKinley. The exact day of the execution is unknown, except to those who will be present. As formally announced, it will take place some time during the week commencing on October the 28th, and judging from past customs, it may be inferred that about Wednesday will be the day. That the demon may pay a just penalty for the crime committed, the execution ought to begin Monday and last eight days, the length of time it took him to plan and carry into effect, this horrible deed, making the severity of the punishment as great as possible, as a lesson to his followers, that they may know, that if they follow in the footsteps of Czolgosz, what they would receive. To the anarchist death seems to have no sting, and a check upon them must be placed. To deal with fiends, they must be dealt with in a fiendish way.

The Interior Journal prints a splendid picture and write-up of the Hon. R. C. Warren, which may be correctly taken as a forerunner of the formal announcement of his candidacy for the Democratic nomination for Congress, in this district. Mr. Gilbert, our present Congressman, will more than likely ask to succeed himself, besides two or three others, who are getting ready to join in the fight for the same honor. But should Mr. Warren enter the race, he will most certainly be a hard man to defeat.

The Somerset Journal was previous to donning its new attire, one of the neatest and best edited weeklies in the State. Its additional space and increased matter seem to have improved in proportion to its growth in size. Editor Campell says the material of the office was furnished on a five year lease by Hon. W. P. Walton with privilege to buy, on yearly payments. Walton has aided a number of young men in the newspaper business, and in so doing has done much good. He has doubtless never forgotten the time when he was struggling with fortune and the good men who encouraged him.—[Danville News.

PRESIDENT ROOSEVELT, who, on account of his liberal and unbiased views, was fast growing in favor.

with the entire South, put a kind of a check on his popularity, by inviting Booker T. Washington, the great colored educator to dine at the White House with him.

At the request of Leon Czolgosz, a Catholic Priest visited him in his cell, to talk with him about his soul salvation. If there is any redemption for him, not many people need have any fear of being lost.

TAKEN AS TRUE.—The people of this county, can not help but think that the very grave charges brought against Mr. H. L. Tate by his brother county officials are true as they are denied. If they are true and he virtually pleads guilty to them by his continued silence should he be elected sheriff of this county? Think, voter, think! We have a splendid sheriff, elect "Gus" Stewart and have another good one.

POUND PARTY.—Monday being Prof. Ewers' birth-day, the students in his room or rather those belonging to the College department, accompanied by a number of the older people, gave him what they termed a pound surprise party, each one taking with them a pound of something. While it was very much of a surprise to Prof. Ewers, yet, he was ready, as he always is, to furnish the young folks an enjoyable evening.

When next in the neighborhood of Cox Bros' store drop in and look over Strauss Bros' line of tailoring samples. As handsome as the samples are they give but a faint idea of the splendid tailoring you receive when you order. Perfect fitting, elegant and distinctive in appearance, thourly made in every particular, describes the class of clothes made by Strauss Bros. Still prices are very low and the service you get is just as good as you expect it to be. Winter is here, and it's time to order.

ALRIGHT NOW.—Alex Pennington, compositor in this office, who began work, when the present management took charge in December 1899, and who had never lost but two day's work during the entire time, has been out part of this week trying to recruit up from a severe attack of illness, which came on him Friday night becoming more serious Sunday about noon, when he became speechless and was unable to speak until 3 o'clock Monday morning.
